

Albatross World represents Travel Industry at LED Symposium 2018!

Albatross World is honored and proud to be representing the travel industry at the LED Symposium 2018 held at Ritz Carlton Hotel on Nov 9, 2018.

The LED Scheme is open to SMEs that are interested to become more manpower-lean, develop a strong Singaporean core, and build a quality workforce.

LED Symposium 2018 was held to showcase local SME's that had utilized the Lean Enterprise Development (LED) scheme under MOM to transform and grow their businesses.

We are honored to have the Minister of Manpower Mrs. Josephine Teo to visit our booth to talk to us and understand more on the pain points in the travel industry and how Albatross World had managed to overcome them with the help of technology and fundings from MOM.

During the event, we are able to showcase how much technology has helped us in the past years to increase work efficiency, productivity, and sales with the limited manpower we have. We have changed so much over the years and we will continue to work hard to keep up with the times in this ever-changing, fast-paced, technology-driven world.
